

travelwaste.com

Paros Cape Suites is a proud member of “travelwaste.com Project”, rated with 5 stars for its management of plastic and chemical usage as well as Clean Blue Paros (commonseas.com/countries/clean-blue-paros)

The hotel aims to improve our guests’ direct **eco** footprint through the following ways:

	Reduction of plastic usage through the elimination of water bottles and amenities bottles. Guests will have access to “water stations” in several areas of the hotel, where they can enjoy free unlimited re-fills of their specially-designed complimentary thermos bottles. Further reduction by replacement of plastic straws and plastic waste bags with eco-friendly materials.
	All bath amenities have been replaced with wall-mounted dispensers refilled daily with Eco-friendly products, based on Greek olive oil from Zealots (zealotsofnature.com).
	Reduction of chemical usage through improved management of cleaning services – turn-down service every other day instead of every day.
	Free access to bicycles for travel on the island, thereby reducing usage of motor vehicles.

Paros Comfy Suites is the first branded hotel in Paros with 5 stars based on the Travelwaste.com Project rating system.
